RE: Dual Credit Crosswalk for Career and Technical Education (CTE) courses

In order to assist schools, parents, and students with opportunities to earn dual credit in Career and Technical Education pathways, IDOE and ICHE have created a CTE Dual Credit Crosswalk to be used as an advising tool as they provide guidance to students regarding their high school graduation plans and coursework.

The CTE Dual Credit Crosswalk provides schools with the designated IDOE coursework (course code and title) that directly correlates to the post-secondary institution, coursework (course code and title) and degree pathway (i.e. A.A.S., B.S., Certificate, etc...) it leads to, as well as the number of post-secondary credits that could be earned for each course through the dual credit agreement.

The Dual Credit Crosswalk is not an exclusive list of all dual credit courses schools may offer to their students, but rather, the courses that have been approved through the Indiana Commission for Higher Education (ICHE) and Statewide Transfer and Articulation Committee (STAC) as part of the Priority Dual Credit CTE (PCL-CTE) list. If a high school has a formal agreement with a college to award dual credit for these courses, students may earn both high school credits and transcribed college credits as specified in the dual credit agreement. Per Indiana legislation, the college can charge high school students no more than \$25 per college credit for PCL-CTE courses taught by a high school instructor and the college receives funding as part of ICHE's Dual Credit biennium budget recommendation.

The CTE Dual Credit Crosswalk will be updated annually and provided to schools prior to the start of the school year.

If you have any questions regarding the CTE Dual Credit Crosswalk, and/or request a high school course be added to the crosswalk, please contact Jenny Berry at jberry@doe.in.gov and Tari Lambert at tlambert@che.in.gov for further guidance and assistance.
