teacher provided me with support and answered any questions I had about the teaching profession once I began teaching at the school. These areas included classroom management and effective teaching strategies. Beginning with my second year, this teacher took an administrative position and was able to complete observations during my classroom instruction and provide me with critiques and advice toward improving my practice. I also worked with other administrators in my building to improve my teaching skills. In my second year I also worked closely with two veteran teachers in my grade level. We participated in weekly planning sessions consisting of curriculum and discussed how to address both ENL and special education students. Outside of my school, I also utilized the advice of several veteran teachers that I have worked with or have been within my own family throughout the course of my educational career. All of these experience have helped me to develop my practice and become a better teacher. I plan to continue on this path and continue to refine even if you have had previous teaching experience. I also went through a field experience at South Newton Middle-High School and South Newton Elementary School as as a requirement to receive my Administrative Leadership masters degree.
