

TITLE III REIMBURSEMENT

PURPOSE: This instruction establishes a policy that prohibits claiming reimbursement under the Child and Adult Care Food Program and Part C of Title III of the Older Americans Act of 1965.

SCOPE: Adult day care centers participating in the Child and Adult Care Food Program (CACFP).

DESCRIPTION: Adult day care centers participating in the Child and Adult Care Food Program may not claim the same meals under both the CACFP and Part C of Title III of the Older Americans Act of 1965. Additionally, if a center claims reimbursement for a meal under the CACFP, it may not use any Title III funds to pay for the cost associated with that meal or vice versa. Further, the receipt of commodities and/or cash-in-lieu of commodities, available under both programs, may not be received if the benefit is based upon the same meal for both programs.

In spite of this prohibition, an adult day care center may use program funds to provide different meals within the same meal service or different meal types (breakfast, lunch, snack, and supper). This flexibility, however, results in requiring that accounting and other necessary program records be maintained to ensure that Federal funds are not duplicated by the various Federal programs.
