

Dear School Nutrition Director and/or Food Service Manager,

The American Dairy Association Indiana Inc. and the Indiana Department of Education (IDOE) is excited to promote National Nutrition Month. Through the Let’s Move to Schools, IDOE and Dairy Optimization grants, salad bars and breakfast bars are being used daily. We have heard that schools around Indiana have successfully implemented breakfast/salad bars into their daily meal program. We want to see yours!

Do you have special events or themes? Do you have students help at the breakfast bar or at lunch time? How do you get your kids excited about breakfast, lunch and dairy? The American Dairy Association Indiana Inc. and IDOE would like to showcase schools across Indiana that have successfully incorporated their breakfast/salad bars into a daily destination for their students.

Join in the fun and submit your menus, photos and a brief description of your breakfast/salad bar by March 31, 2015 to plummer@WinnersDrinkMilk.com. The American Dairy Association Indiana Inc. will use your photos, menus and description to write a blog describing how your school promotes nutrition at breakfast and lunch during the school day.

If you are short on time and do not have a chance to submit all of this information about your salad/breakfast bar, click “reply” and fill out the form below for each school by March 31, 2015.

Once information below is returned, I will call you for further information and photos.

Please tell us about your school	Answers
Name of School Building	
Name of School Corporation	
Name of applicant	
Email address of applicant	
Enrollment	
Is your salad bar program new this year?	
Has your school used the meal bar in a special manner?	Answers (Y/N)
For themed meals	
Incorporating meals from around the country or world
