

Review Process and Planned Outcome:

This review is not an audit and is intended to provide your school corporation with input to ensure that your Emergency Preparedness Plan meets the requirements of the following Indiana Administrative Code and Indiana Code.

- 511 IAC 6.1-2-2.5 – Safe schools and emergency preparedness planning
- 511 IAC 4-1.5-7 – Crisis intervention plans
- IC 5-2-10.1 – Safe school committees: school plans
- IC 20-34-3-20 – Drills

The codes are outlined on the following pages. The bold print represents all codes adopted by the State of Indiana and in order to be in compliance these items must be addressed in an Emergency Preparedness Plan. The remaining items are suggested practices for school safety initiatives and could be potential areas for growth.

If your plan components do not meet all of the requirements, we will outline what additions should be done to establish compliance. The School Safety Academy will provide any assistance needed to ensure that the plan can be revised to meet all requirements.

Another goal of this review is to ensure that the Indiana School Safety Specialist Academy is providing the training and resources needed to ensure that School Safety Specialists can address any safety, intervention/prevention, security, and/or emergency preparedness concerns within their school system. Suggestions for future trainings and specific resources not currently provided are always encouraged.

We want to thank you for your time and we want you to know that we are here to support your school system in developing, implementing, revising, and updating school safety practices in order to provide safe educational environments for your school corporation.
