# NO MORE

TOGETHER WE CAN END  
DOMESTIC VIOLENCE & SEXUAL ASSAULT

ICADV is helping to spread the word about the NO MORE campaign. Like the peace sign, the yellow ribbon that supports U.S. troops and the red AIDS ribbon, the goal of NO MORE is to raise visibility for the issues of domestic violence, challenging the stigma that surrounds them and taking the first step toward broader social change.

## INTRODUCTION

ICADV pursues a vision where all people engage in healthy relationships characterized by the mutual sharing of resources, responsibilities and affection; where youth are nurtured with those expectations; and where all people are supported within a society committed to equality in relationships and equity in opportunity as fundamental human rights.

The Indiana Coalition Against Domestic Violence is a not-for-profit corporation that works to eliminate domestic violence through the implementation of prevention programs including public education, advocacy for system and societal change, influencing public policy and allocation of resources. Until the violence ends, ICADV works to promote, strengthen and provide quality comprehensive services for member programs and all individuals affected by domestic violence across the state.

Programs that are outlined in this directory provide services, either on-site or via referral, to survivors of domestic and sexual violence, their children and batterers. The services offered by residential and non-residential domestic violence programs are free of charge. Each program can be contacted to find out what services it provides.

## PROGRAM DEFINITIONS

**Residential Program:** has the capacity to safely house and feed domestic violence survivors and their children as well as provide crisis intervention, service needs assessment and provision, information and referral, advocacy, arrange for or provide transportation to shelter within designated service area ... all day, every day.

**Nonresidential Program:** provides crisis intervention, information and referral services, support and advocacy, face-to-face services in the client's community, arrange for transportation to a safe place and/or other services as necessary ... for a minimum of 40 hours per week, sometimes 24 hours a day.

**Transitional Programs:** provide longer-term affordable housing and support services.

**Satellite Office:** a small office in a location separate from the main facility. It does not meet the full definition of a residential or nonresidential facility as it operates less than 40 hours per week in the community and/or does not have access to services 24 hours a day or seven days a week.

**Batterers' Intervention Programs (BIP):** BIP is an education-based program that makes survivor safety its primary priority, holds offenders accountable and promotes a coordinated community response to domestic violence. The goal of a BIP is to provide men who use violence with the opportunity and skills to change the behavior, beliefs and attitudes that support their use of violence against intimate partners. Certified BIPs work closely with community courts, corrections and child welfare as they receive most of their referrals from these entities. BIP groups meet on a weekly basis for 26-40 weeks depending on the program. Furthermore, BIPs are required to collaborate with survivor service providers to ensure that the victim/survivor/partner of a participant receives and/or has access to supportive services.
