Based on the 2017 AP Cohort Data Report:

Indiana was ranked 27th in the nation based on the percentage of students in the graduating class of 2016 that scored a 3 higher on at least one AP exam while in high school.

The percent of students in the graduating class of 2016 that scored a 3 or higher on at least one AP exam while in high school is 18.1%
The percent of students in the graduating class of 2016 that took at least one AP exam while in high school is 36.8%

Over the past 10 years, the percent of the graduating class that scored a 3 or higher on at least one AP exam while in high school has increased from 9.2% to 18.1%

Over the past 10 years, the number of low-income students taking at least one AP while in high school has increased from 376 to 4,309 students.

According to Commission for Higher Education’s 2017 College Readiness Reports, students who earn a 3 or higher on an AP exam:

Enroll in college at higher rates than other groups of Indiana students
Require significantly less remediation than other groups of Indiana students
Have significantly higher average first year GPA’s and credit hours earned than other groups of Indiana students

Here is a link to this report: [http://www.in.gov/che/files/2015%20state%20level%20reports.pdf](http://www.in.gov/che/files/2015%20state%20level%20reports.pdf). These bullets speak to why AP and success in AP is important to college readiness and success. These finding hold true for student that took an AP exam but did not score a 3+ as well.

Indiana has approximately 300 high school teachers and college faculty that serve as AP Readers.

- AP high school teachers: 153
- College and university faculty members: 147
