The SEA must establish and ensure implementation of clear and appropriate guidelines for Case Conference Committees to apply in determining when a child’s significant cognitive disability justifies assessment based on alternate achievement standards 34 CFR 200.6 (a)(2)(iii)(A)(1)

The Case Conference Committee (CCC) determines, based on the criteria provided and the student’s individual and unique needs, whether a student with disabilities will participate in general education assessments with or without testing accommodations, or in the alternate assessment with or without accommodations. The alternate assessment is based on alternate achievement standards/content connectors. The CCC must be informed that the decision to participate in an alternate assessment means the student will have limited or modified exposure to the grade level standards that may have a significant impact on the student’s academic outcomes and post-secondary opportunities.

When the CCC concurs that all four of the criteria below accurately characterize a student’s current educational situation, the CCC is indicating that the student has a significant cognitive disability, therefore, the student is ELIGIBLE to participate in the Alternate Assessment in lieu of the General Education Assessment.

### Participation Criterion

1. Review of student record indicates a disability that significantly impacts intellectual functioning and adaptive behavior. Adaptive behavior is defined as essential for someone to live independently and to function safely in daily life.

2. The student requires extensive, repeated, individualized instruction and support that is not of a temporary nature.

3. The student uses substantially adapted materials and individualized methods of accessing information in alternative ways to acquire, maintain, generalize, demonstrate and transfer skills across multiple settings.

4. Goals listed in the Individual Education Plan (IEP) for this student are linked to the enrolled grade level Alternate Achievement Standards (Indiana Content Connectors).

Decisions for determining participation in the alternate assessment must not be based solely on any of the following:

- A disability category or label
- Poor attendance or extended absences
- Native language/social/cultural or economic difference
- Expected poor performance on the general education assessment
- Academic and other services student receives
- Educational environment or instructional setting
- Percent of time receiving special education
- English Language Learner (ELL) status
- Low reading level/achievement level
- Anticipated student’s disruptive behavior
- Impact of student scores on accountability system
- Administrator decision
- Anticipated emotional distress
- Need for accommodations (e.g., assistive technology/Augmentative and Alternative Communication) to participate in assessment process

In a given year, a student must participate in either all general education assessments or all alternate assessments, not parts of both.
