

Materials List

What you will need:

- Internet access would be helpful but not required.
- Chart paper and markers.
- Catalogs – enough so that you can divide the participants into groups of 2 or 3 and each group has their own catalog for the “Center Building” activity.
- Scenarios one per half page. You will need enough of them that your participants could work in groups of 2 or 3 and complete one or two scenarios for the “Scenario” activity. Different groups may use the same scenarios as it would be interesting to see if they identify different Foundation and Topic pairs. You will need to print and cut pages in half for one scenario per half page.
- One set of handouts per participant – see list below.

Handouts for each participant:

- All participants will need to have a copy of the Foundations so either they need to be instructed to bring it or you need to have copies, one for each of them.
- Copy of the PowerPoint of the training on the notes page design with three slides per page. To save paper, you may remove the transition and activity slides before printing.
- Two blank copies of the multi-age matrix – one for them to work on in the training and one blank one to take with them.
