

Who We Serve

IDOE's [Office of eLearning](#) is focused on connecting Indiana students, teachers, coaches, and administrators to new resources, models, and technologies to support teaching and learning in the digital age.

Via the [#INeLearn network](#), we are connected to thousands of Indiana educators who participate in our professional development opportunities, online communities, and digital learning initiatives.

eLearning 2013

- Launched our social media presence, led by [@INeLearn](#) with 8,000+ followers
- Created the [Virtual Option for Inclement Weather](#) (119 districts now approved)
- Provided online courses in blended learning; attended by 3,500 educators
- Negotiated access to [NBC Learn](#) video resources for all Indiana students and teachers
- Partnered with [My Big Campus](#) for four years of state-wide collaboration in a learning management system

eLearning 2014

- Established the [eLearning Coach Community](#) (now over 400 coaches)
- Supported the new Indiana Academic Standards by establishing [60 online communities](#) (now 10,000 members) for the sharing of digital content
- Helped facilitate regional trainings around the new standards
- Published a [state-wide 1:1 map](#) for self-reporting about technology initiatives

eLearning 2015

- [Summer of eLearning](#) conferences expand to more than 8,000 educators
- [90 boards of teacher resources](#) on Pinterest reach 2,500+ followers
- Established a [Digital Content Cohort](#) of 100+ teachers; 1,000 lessons created
- Provided Admin Academies to [build technology awareness](#); 1,200 principals and superintendents

eLearning 2016

- Helped found the national [Future Ready movement](#), and one of 14 founding [#GoOpen states](#) for digital content
- Overhauled the legacy Tech Plan to create a survey that saves time and [provides more useful data](#) to schools
- Received the [Teaching with Primary Sources Grant](#) from Library of Congress
- Built a state-wide program to support [Digital Citizenship](#) and student technology teams

Grants

The Office of eLearning awards grants to Indiana districts each year totaling more than \$2 Million from the David C Ford educational technology fund. Our [Innovation Planning](#) grant supports districts just beginning their digital transition with \$30,000 for study and planning. Districts who prove their capacity to support connected learners are eligible for our [Digital Learning](#) grants of \$75,000. The grants help expand 1:1 learning and drive other innovations in our schools. Additionally, we have supported the hosts of [Summer of eLearning Conferences](#) each year with modest grants from Title IIA State Activity funds for professional development.
