

Evaluating Digital Content for Accessibility

How do we ensure accessibility for ALL students?

[Accessibility Video](#)

1. Provide captions for videos
2. Alt-text (that is, an inserted word or phrase to describe an image) on websites and in e-books
3. Standard headers in websites, forms, e-books, and documents
4. Minimum 10 pt font; don't use all CAPS
5. Differentiate links with underline and color
6. Adjustment of text colors and background contrasts
7. Text-to-speech capabilities speech-to-text, dictionaries, and glossaries

Self-check: Navigate to one of your digital lessons or a go-to resource, spend a few minutes evaluating it for accessibility. Did it pass? Check out the add-on Grackle.
