# Indiana K-12 State Tuition Support Annual Report

**Prepared by the Indiana Department of Education Office of School Finance**  
**May 2017**

FY 2014 to FY 2017

## ***INDIANA K-12 STATE TUITION SUPPORT***

School funding follows a statutory formula created and revised by the Indiana General Assembly as part of the biennium budget process, located at Indiana Code 20-43. The purpose of this report is to provide an overview of the State Tuition Support formula from FY2014-2017. It is important to keep in mind that when the Indiana General Assembly appropriates funds for state tuition support, the appropriation supports three different programs: 1) state tuition support; 2) Choice Scholarship program; and 3) the Mitch Daniels Early Graduation Scholarship program. The school funding formula only applies to state tuition support while the other two programs operate under different parameters. References throughout this report to school funding, state tuition support and school formula apply to the same.

### **Recent History**

The school funding formula was originally designed on a calendar year basis and transitioned to a fiscal year basis during the 2012-13 school year and then operated solely a fiscal year basis beginning with the 2013-2014 school year. The state fiscal year runs from July 1 to June 30. Prior to calendar 2009, state tuition support for every school corporation was divided into a state portion and a local portion, with the local portion being funded by property taxes and the state portion being funded by the state general fund. School corporations that had a higher assessed value raised the majority of tuition support funds through property tax dollars with less financial support from the state while school corporations with a lower assessed value received greater financial support funding from the state and less funds raised through local property taxes. However, school corporations can still raise general fund operating funds through a referendum process. In fiscal years 2009 and 2010, federal ARRA Stimulus funding supplemented state tuition support.

Special education preschool was included in the school formula beginning in calendar year 2009. Prior to 2009, special education preschool was funded by a mixture of a state appropriation and local property taxes. The full day kindergarten grant was included as part of the school funding formula rather than as a separate appropriation beginning in fiscal year 2014.

Turnaround school payments were based on the applicable public school corporations state tuition support grant amounts beginning in fiscal year 2013. School choice scholarships and Mitch Daniels early graduation scholarships were not part of the state tuition support formula but were paid from the tuition support appropriation beginning in fiscal year 2012. Calculations for tuition for adult charter schools were removed from the state tuition support formula in fiscal year 2014 and given a separate appropriation.

## **State Tuition Support Cap**

State tuition support funding was required to fit within the calendar year caps when the school formula was on a calendar year basis, as well as within the fiscal year appropriation. If state tuition support, combined with school choice scholarships and the Mitch Daniels early graduation scholarships, exceeded the cap or appropriation, the law required each school corporation be reduced proportionally according to the percentage of state tuition support they received compared to the total state tuition support for all school corporations in the state. State law requires the Department of Education (Department) to distribute state tuition support funds in a schedule that provides at least twelve payments with one payment made at least every 40 days. (I.C. 20-43-2-1) The payment schedule was set by the State Budget Agency and the Governor's office. Beginning in fiscal year 2014, legislation allowed up to \$25 million to be transferred to tuition support from the state tuition reserve account if tuition support exceeded the appropriation and the amount of choice scholarship distributions exceeded the amount estimated for choice scholarship distributions during the legislative session. (I.C. 20-43-2-7.5)

The state tuition support formula has been based for many years on a foundation amount for every student. There have been several types of transition, or smoothing, methods used in the school formula. In FY2017, all school corporations received the foundation amount for each student as part of the basic tuition support grant.

## ***INDIANA K-12 STATE TUITION SUPPORT FUNDING***

Since 2003, a variety of grants have been part of the school formula: a honors diploma grant, a career and technical grant, a special education grant, a complexity index grant, an at-risk index grant, a growing enrollment grant, a remediation grant, a primetime grant, a restoration grant, a small schools grant, and a kindergarten grant.

In fiscal year 2017, there were six types of schools funded through the tuition support formula: traditional public schools, charter schools, virtual charter schools, turnaround schools, innovation network schools, and innovation network charter schools. With the exception of three innovation network charter schools, the students attending turnaround schools, innovation network schools, and innovation network charter schools were included in the funding formula as part of the calculations of the original traditional public school corporation. Funding for the turnaround school students was then withheld and transferred to the turnaround schools by the Department of Education. Funding for the innovation network schools and the innovation network charter schools was distributed by the traditional public school corporation to which they

belonged per their agreement. For purposes of this report, the funding for turnaround schools, innovation network schools, and innovation network charter schools was not reported separately but included in the funding of the original public school corporation unless the calculations for the school were performed separately as part of the school funding formula.

### **Average Daily Membership (ADM)**

The school funding formula used **Average Daily Membership (ADM)** for the student counts. The Average Daily Membership was a count of students enrolled and expected to be in attendance for Kindergarten through Grade 12 in Indiana public school corporations and all charter schools on a particular day. For public school corporations that did not offer a full-day kindergarten program, kindergarten students were counted as one-half (1/2) for membership. For public school corporations that offered a full-day kindergarten program, kindergarten students counted as one (1) for membership. The change in the manner in which full-day kindergarten students were counted in the ADM began with the FY2016 school funding formula. Enrollment differed from ADM for fiscal years 2014 to 2017 in that enrollment counted all students as 1 while ADM dual enrollment was on a full time equivalent basis. The Department pulls Pupil Enrollment from the Real Time data collection while ADM is collected through the Membership data collection.

A single student count, taken in the fall, was used for the school formula prior to fiscal year 2014. Beginning in fiscal year 2013, two student counts were taken: one in the fall and one in the spring. Although the February 2013 count was not used for funding purposes, it was a required count. Both count dates annually required approval of the State Board of Education.

The ADM was the sum of the following:

- **Resident Enrollment**
  - Resident enrollment for a school corporation included those students with legal settlement in, and who enrolled and attended school in the school corporation. For a charter school, resident enrollment included Indiana students who enrolled and attended an individual charter school, regardless of legal settlement. Foreign exchange students, who resided in, and attended the school corporation were also considered for resident enrollment.
- **Transfers Out**
  - Transfers out for a school corporation were resident students who, for various reasons, were transferred out to another school corporation or out of State. This term did not apply to charter schools. Reasons include:
    - An agreement between the corporation of legal settlement and the servicing corporation;

- A “better accommodation” student transfer agreement under I.C. 20-26-11-5 between the corporation of legal settlement and the student’s parent(s);
- A “better accommodation” order by the State Board of Education;

The student was served by a public or private school under a contract for residential or alternative services through the State Superintendent of Public Instruction.

- **Cash transfers**

- Cash transfers for a school corporation included students with legal settlement in another school corporation who enrolled and attended school another school corporation based on an agreement between the parent(s) and the school corporation the student attended. Cash transfers may or may not have included students whose parent(s) paid tuition to the school corporation the student attended. This term did not apply to charter schools.

- **State Obligations**

- State obligations for a school corporation included any student placed into the school corporation as a result of State action and included:
  - State placement into an institution located within the corporation that is operated by the Division of Disability, Aging, and Rehabilitative Services, or the Division of Mental Health.
  - State placement by either of the above agencies into an institution, public or private facility, a home, group home, or alternative family setting within the school corporation.
  - Student who enrolled and attended the school corporation and who were children of State employees living on State property.
- State obligations for a charter school included students who enrolled and attended the charter school and who were children of State employees living on State property.

- **Placements In**

- For a school corporation, this included a student who enrolled and attended the school corporation as a result of placement by Indiana county welfare, Indiana courts, Indiana licensed child-placing agencies, or by a parent or guardian in a State licensed private or public health care facility, child care facility, or foster home located in the school corporation. This placement into the school corporation was for non-educational reasons. This term did not apply to charter schools.

- **Dual Enrollment**

- For a school corporation or charter school, this included any student who enrolled in a public school and a nonpublic or home school, who had legal settlement in the school corporation and who received instructional services from the

school corporation. These students were counted on a full-time equivalency basis, based on the number of periods served in the day by the public school and must have received 180 days of instruction.

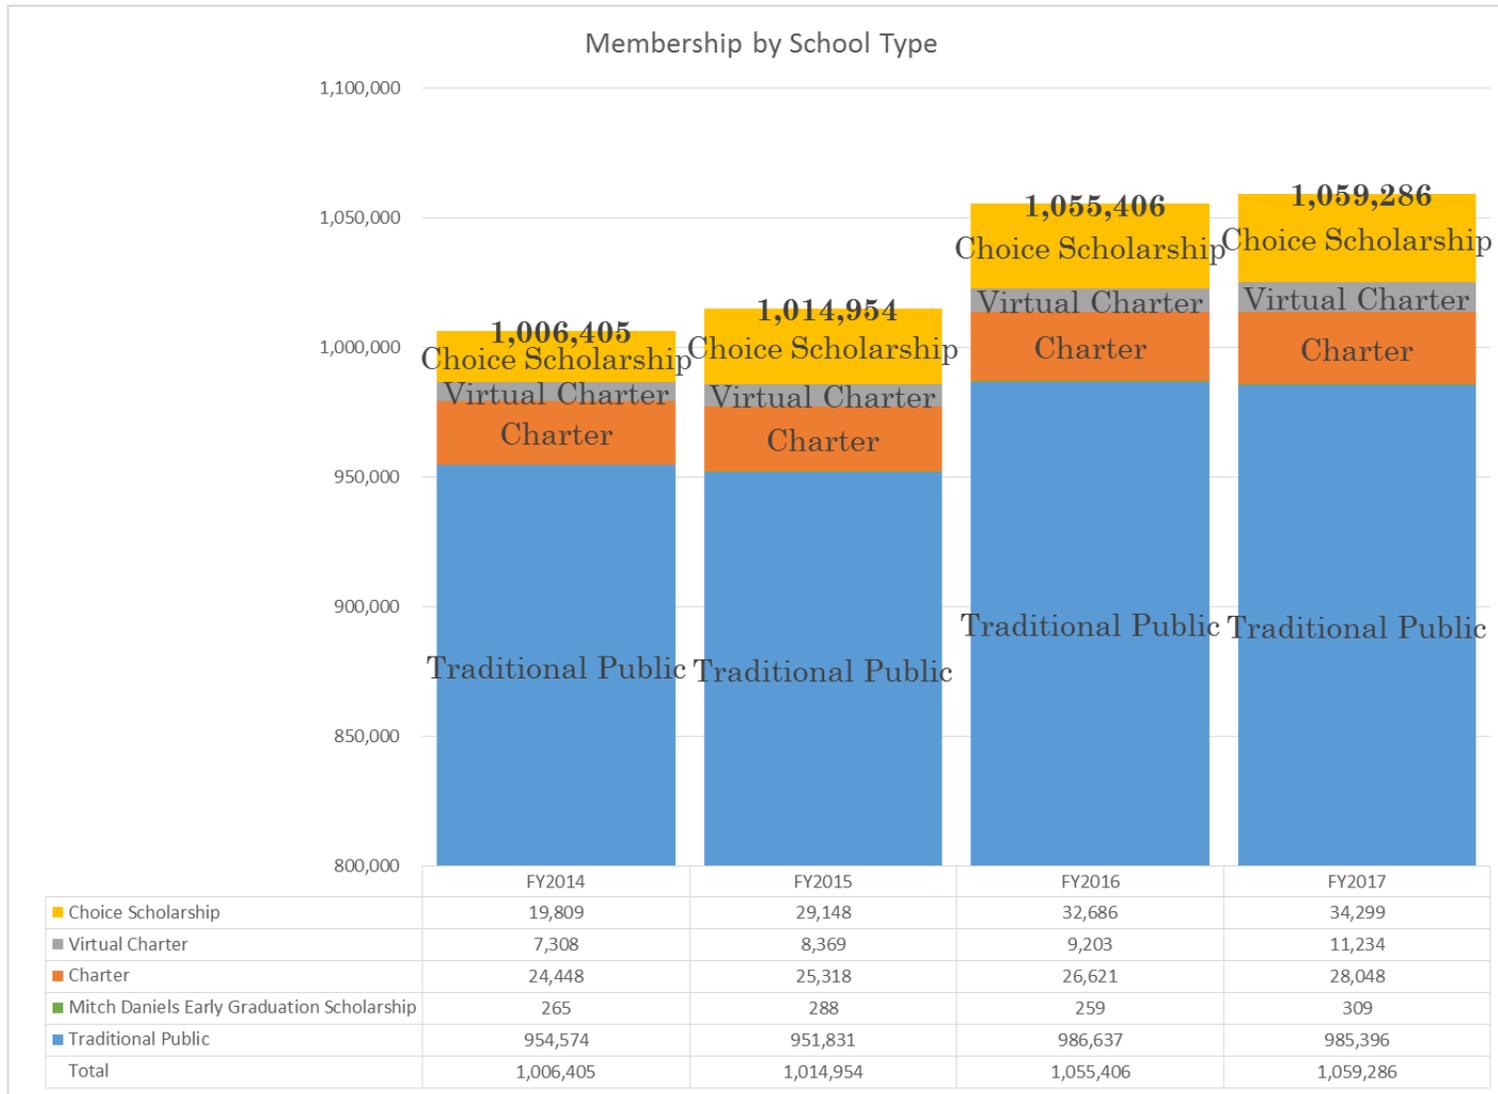

For funding purposes, the ADM count was taken two times a year. The first count date was the second Friday after Labor Day, as established by the State Board of Education and reflected in the Board’s rule, which can be found in 511 IAC 1-3-1. This was referred to as the “fall” count and provided basic tuition support and complexity grant funding for July through December. A second ADM count was taken on a date established by the State Board of Education for some time in February. This was referred to as the “spring” count and provided basic tuition support and complexity grant funding for January through July. Indiana code 20-43-1-23 defined a charter school as a school corporation.

State tuition support amounts varied by school corporation based on student counts. The state tuition support formula was set by law but the grant amounts distributed to a school corporations varied based on that school’s data and the grant parameters. Current data was often collected the same year of the tuition support distribution. Estimated data was used when necessary until actual data was available. As actual data became available, the Department adjusted the five grants so that the amount the school corporation received was the same amount that would have been received if the actual data had been available immediately. This reconciliation process occurred periodically throughout the school year as new current year student data was collected. The Department recalculated and reconciled basic and complexity grant funding in November and April, special education funding in February, and Career and Technical Education and Honors grant funding in December. The statewide distribution of funds were required to fit within the tuition support appropriation.

Table 1 below show statewide membership counts for FY2014-FY2016.

Table 1: Average Daily Membership (ADM) and Scholarship Totals				
	FY2014	FY2015	FY2016	FY2017
School Corporation Fall ADM	989,696.28	988,647.02	1,024,916.24	1,027,134.65
School Corporation Spring ADM	982,965.11	982,388.84	1,020,006.00	1,022,221.38
Choice Scholarships	19,809.00	29,148.00	32,686.00	34,299.00
Mitch Daniels Early Graduation Scholarship	265.00	288.00	259.00	309.00

The following chart shows the average of the fall and spring ADM and the scholarship counts.

The following chart shows the average of the fall and spring ADM by Metropolitan, Suburban, Rural, Town, and Virtual Charter, as traditionally defined by the Department.

**Appendix A provides a breakdown of the statewide totals for membership by school corporation from FY2014 through FY2017.**

## State Tuition Support Grants

In fiscal years 2014 and 2015, the state tuition support formula was comprised of six grants. Beginning with fiscal year 2016, the full day kindergarten grant was removed when the student count for kindergarteners was moved from ½ to 1 ADM, which resulted in five grants. All state tuition support grants were deposited in the school corporations’ general fund.

The fiscal year appropriations for state tuition support are shown in Table 2 below:

Table 2: State Tuition Support Appropriations			
FY2014	FY2015	FY2016	FY2017
\$6,622,800,000	\$6,691,600,000	\$6,820,300,000	\$6,980,500,000

**Appendix B provides a breakdown of the state tuition support totals by school corporation from FY2014 through FY2017.**

- 1. Basic Grant.** The Basic Grant for fiscal year 2014 to fiscal year 2016 was comprised of a base amount per student, which consisted of the foundation amount plus a transition to foundation amount. The base amount per student was multiplied by the number of students to calculate the Basic Grant, based on the fall and spring ADM counts. Virtual charter schools received 90% of the foundation amount per student without a transition to foundation as part of the calculation. Charter schools were funded identically to traditional public schools with the exception of new charter schools. New charter schools were funded at the foundation amount per student beginning fiscal year 2016. The fiscal year 2017 basic grant was the same for all school corporations and was set at the foundation amount with the exception of virtual charter schools who received 90% of the foundation amount. Table 3 below shows the foundation amount for fiscal years 2014 to 2017.

Table 3: Foundation Amounts			
FY2014	FY2015	FY2016	FY2017
\$4,569	\$4,587	\$4,967	\$5,088

Table 4 shows the amounts distributed for the Basic Grant for fiscal years 2014 to 2017.

Table 4: Basic Grant Totals			
FY2014	FY2015	FY2016	FY2017
\$4,560,189,077	\$4,555,903,176	\$5,074,826,228	\$5,207,854,356

The Department reconciles the Basic grant in November for the fall count and in April for the spring count. Specific data collection requirements for membership counts were provided in the DOE-ME Membership Report layout.

2. **Complexity Grant.** The Complexity Grant utilizes demographic factors to provide additional funding based on the school corporation’s percentage of students who met certain criteria as described for fiscal years 2014 - 2017. In fiscal year 2014, additional funding was based on the school corporation percentages of students who qualified for a free or reduced lunch in fiscal year 2013, with an additional augmentation for those school corporations with a percentage of at least 33%. In fiscal year 2015, complexity funding was based on the percentage of students eligible for free textbooks in 2014, with an additional augmentation for those school corporations with a percentage of at least 25%. The complexity index for fiscal years 2016 and 2017 used the sum of the following data:
  - a. The percentage of students who qualified for Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or who received foster care services in FY 2015; plus
  - b. A transitional percentage based on the FY 2015 year complexity index; plus
  - c. An augmentation for traditional public school corporations whose complexity percentage decreased by more than one tenth from the previous year and whose fiscal year 2015 percentage of English Language Learners was at least 25%.

The calculation results were multiplied by \$3,489 to determine the fiscal year 2016 complexity grant and by \$3,539 to determine the fiscal year 2017 complexity grant. Table 5 shows the amounts distributed for the Complexity Grant for fiscal years 2014 to 2017.

Table 5: Complexity Grant Totals			
FY2014	FY2015	FY2016	FY2017
\$1,144,499,350	\$1,151,408,366	\$891,554,291	\$887,063,363

As previously stated, the complexity grant reconciliation occurred at the same time as the reconciliation of the basic grant.

3. **Honors Diploma Grant.** The Honors Diploma Grant was based on the number of students in the previous school year who received an academic honors diploma or a Core 40 diploma with technical honors. In fiscal years 2014 and 2015, the Honors Grant provided \$1,000 per honors diploma. For fiscal years 2016 and 2017, the grant provided \$1,400 for each student who, in the previous school year, received an academic honors diploma or a Core 40 diploma with technical honors and who also qualified for Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or who received foster care services. The 2017 Honors Grant also provided \$1,000 for students who received an honors diploma and did not qualify for SNAP, TANF, or receive foster care services. Indiana Code 20-43-10-2 limited use of Honors Diploma Award monies for: (1) staff training, program development, equipment and supply expenditures or other expenses related to the school’s honors diploma program; or (2) programs for high ability students.

Table 6 shows the amounts distributed for the Honors Grant for fiscal years 2014 to 2017.

FY2014	FY2015	FY2016	FY2017
\$22,033,000	\$23,227,000	\$24,234,800	\$24,711,200

The Department reconciles the Honors grant in December based on students who graduated with a Core 40 with Technical Honors or Academic Honors diploma in the prior school year. Specific data collection requirements were found in the DOE-GR Graduate Report layout.

4. **Special Education Grant.** The Special Education Grant was based on the number of special education students being served on December 1. The special education data collection was used to gather information on students receiving Special Education services on December 1 for the first required collection window and in April for the second required collection window for the school year. Although the second count was required, the Department did not use the count for funding purposes but provides a count summary to the State Budget Committee by law. Schools reported the information on students with an Individualized Education Program (IEP) or Individual Service Plan (ISP) for a non-public school student. In fiscal years 2014 and 2015, the Special Education Grant provided:

- \$8,350 for students in programs for severe disabilities
- \$2,265 for students in programs for mild and moderate disabilities
- \$533 for students in programs for communication disorders or in homebound programs
- \$2,750 for students in special education preschool programs

The Department reconciles the Special Education grant in February based on the number of students and type of exceptionality reported in December. The reconciliation schedule, set by law, adjusted the February payment for any underpayment of special education funds. For an overpayment of special education funds, the Department adjusted the February through May special education grant payments. Specific data collection requirements were found in the DOE-SE Special Education and DOE-HB Homebound layouts.

In fiscal years 2016 and 2017, the Special Education Grant provided:

- \$8,800 for students in programs for severe disabilities
- \$2,300 for students in programs for mild and moderate disabilities
- \$500 for students in programs for communication disorders or in homebound programs
- \$2,750 for students in special education preschool programs

Table 7 shows the amounts distributed for the Special Education Grant for fiscal years 2014 to 2017.

FY2014	FY2015	FY2016	FY2017
\$516,903,719	\$523,795,979	\$544,217,100	\$550,956,483

5. **Career and Technical Education Grant.** The Career and Technical Education Grant provided additional funding for career and technical courses. Grant amounts were based on the number of students, number of credit hours, and the rating given to the courses. The ratings consisted of high/moderate/low need and high/moderate/low wage. For fiscal years 2014 and 2015, the grant amount was also based on number of students in other vocational programs and the

number of students participating in a career and technical program in which students from multiple schools were served at a common location. In fiscal years 2016, and 2017, the “other vocational programs” category of funding was divided into three categories: the number of students enrolled in an introductory career and technical course, the number of students enrolled in a foundational career and technical course, and the number of students enrolled in: an apprenticeship, a cooperative education program, or a work-based learning course.

In fiscal years 2014 and 2015, the Career and Technical Education Grant provided:

- \$450 for students enrolled in programs determined to be more than moderate labor market need and more than moderate wage
- \$375 for students enrolled in programs determined to be more than moderate labor market need and moderate wage or for students enrolled in programs determined to be moderate labor market need and more than moderate wage
- \$300 for students enrolled in programs determined to be more than more than moderate labor market need and less than moderate wage or for students enrolled in programs determined to be moderate labor market need and moderate wage or for students enrolled in programs determined to be less than moderate labor market need and more than moderate wage
- \$225 for students enrolled in programs determined to be moderate labor market need and less than moderate wage or for students enrolled in programs determined to be less than moderate labor market need and moderate wage
- \$150 for students participating in a program in which students from multiple schools were served at a common location
- \$250 for students enrolled in all other career and technical programs

In FY 2016, and continuing for FY 2017, the Career and Technical Education Grant provided:

- \$500 for students enrolled in programs determined to be more than moderate labor market need and more than moderate wage
- \$450 for students enrolled in programs determined to be more than moderate labor market need and moderate wage or for students enrolled in programs determined to be moderate labor market need and more than moderate wage

- \$300 for students enrolled in programs determined to be more than moderate labor market need and less than moderate wage or for students enrolled in programs determined to be moderate labor market need and moderate wage or for students enrolled in programs determined to be less than moderate labor market need and more than moderate wage
- \$225 for students enrolled in programs determined to be moderate labor market need and less than moderate wage or for students enrolled in programs determined to be less than moderate labor market need and moderate wage
- \$150 for students enrolled in programs determined to be less than moderate labor market need and less than moderate wage
- \$150 for students participating in a program in which students from multiple schools were served at a common location
- \$300 for students enrolled in an introductory career and technical course
- \$150 for students enrolled in a foundational career and technical course
- \$300 for students participating in an apprenticeship, cooperative education program or work based learning

The Department reconciled the Career and Technical Education grant in November for any over or underpayment of funds. Information concerning the collection of career and technical education data was based on guidance provided by staff in the Department of Workforce Development and the Department’s Division of College and Career Readiness.

Table 8 shows the amounts distributed for the Career and Technical Education Grant for fiscal years 2014 to 2017.

Table 8: Career and Technical Education Grant Totals			
FY2014	FY2015	FY2016	FY2017
\$98,579,175	\$97,091,350	\$105,821,750	\$109,641,000

6. **Full Day Kindergarten (FDK) Grant.** In fiscal year 2009, the appropriation for FDK increased to \$58,500,000. In fiscal year 2012, the appropriation was increased to \$81,900,000 and up to \$1,234.48 per student (in addition to other grants received for the student as part of state tuition support) and a jump to \$2,400 per student in FY2013. Table 9 below shows the historical amounts per student for the FDK Grant.

Table 9: Full Day Kindergarten Grant Totals			
FY2014	FY2015	FY2016	FY2017
\$196,482,600	\$193,933,035	Part of Tuition Support	Part of Tuition Support

The Full Day Kindergarten Grant (fiscal years 2014 and 2015 only) was based on the number of full day kindergarten students. In fiscal years 2014 and 2015, all kindergarten students, whether full day or half day, counted as one half of a student for the Basic Grant and Complexity Grant. In fiscal year 2014, the grant amount per student was \$2,448, while in fiscal year 2015, the grant amount was \$2,472. In fiscal year 2016, the grant was removed and full day kindergarten students were counted as one student. Students not participating in a full day kindergarten program were counted as one-half (1/2) for both the Basic and Complexity Grants. Since the Basic and Complexity Grants were based on the number of students, the change in the method of counting full day kindergarten students caused an increase in those grant amounts beginning with fiscal year 2016.

Table 10 shows the amounts distributed for the Full Day Kindergarten Grant for fiscal years 2014 to 2017.

Table 10: Full Day Kindergarten Amounts			
FY2014	FY2015	FY2016	FY2017
\$2,448	\$2,472	Part of Tuition Support	Part of Tuition Support

**State Tuition Support.** State tuition support was the sum of all of the grants: the Basic Grant, the Complexity Grant, the Honors Diploma Grant, the Career and Technical Education Grant, and the Special Education Grant. State tuition support was not a predetermined amount, but varied by a school corporation’s formula results based on actual data counts.

An accredited nonpublic alternative school that entered into a contract with a school corporation to provide alternative education services for students who had:

- a. dropped out of high school;
- b. been expelled; or
- c. been sent to the nonpublic alternative school due to the students' lack of success in the public school environment

received the higher of the state tuition support per student received by the school corporation where the student legally resides or the school corporation in which the student was enrolled.

Lastly, a discussion regarding state tuition support funding would not be complete without mentioning “other adjustments.” Other adjustments are monthly adjustments made to the gross state tuition support payment to a school corporation or charter school that increases or decreases the payment. An “other adjustment” is specific to a school corporation or charter school based on the type of adjustment. It is important to note that not every school corporation has an adjusted payment. General adjustment types include:

- d. Repayment of common school or veteran loans;
- e. Medicaid recovery;
- f. Adjustments to correct incorrect data; or
- g. Other statutorily or contractually required adjustments.

The total funding as well as the funding per student for the Basic Grant and the Complexity Grant is shown in Tables 11 through 18 below:

	<b>No. of Corps</b>	<b>FY2014 Basic Grant</b>	<b>FY2014 Complexity Grant</b>
Traditional Public	289	\$4,412,176,091	\$1,094,219,304

In the following table, the complexity percentages of school corporations were divided into 3 categories. In order to obtain the three categories, the school corporations were divided into four equal parts. The first part/quartile, those with the top 25% highest complexity percentages, was labeled “High Complexity”. The middle two parts/quartiles, i.e. the middle 50%, were combined and labeled “Mid Complexity”. The school corporations with the lowest 25% of complexity percentages were labeled “Low Complexity” as shown in Tables 25 to 32:

	<b>No. of Corps</b>	<b>FY2014 Basic Grant</b>	<b>FY2014 Complexity Grant</b>	<b>FY2014 Avg ADM</b>
High Complexity	90	\$1,316,510,228	\$513,772,949	281,719

### Additional Information

Every biennium budget session, the state tuition support formula is updated and members of the Indiana General Assembly appropriate funds for the ensuing two fiscal years. The Office of School Finance will annually update this report to reflect actual spend based on the preceding fiscal year formula output as a result of legislative changes. Because it provides the primary operating revenue for school corporations, the state tuition support formula provides the school governing body the majority of its operating funds to implement programs and services it feels provide the greatest benefit to students.

Data used in this report was pulled from the STN Application Center and the State Aid Application Center. For additional information related to state tuition support and other school finance topics, please join the School Finance Community of the Learning Connection at <https://learningconnection.doe.in.gov/ArticleViewer.aspx?art=8> For questions concerning this report, please contact Melissa Ambre at [mambre@doe.in.gov](mailto:mambre@doe.in.gov) or Amy Pattison at [apattison@doe.in.gov](mailto:apattison@doe.in.gov).
