

MID-WEEK ANNOUNCEMENTS 9.18.19

DOE-GR 2019 Updates

Submit 2019 GR data - do not wait to submit GR 2019 data for students that **DID NOT** participate in summer testing. All graduate records not awaiting summer test scores should be submitted.

Summer Test Scores - IDOE anticipates receipt of summer test scores Oct. 1, 2019. The Office of School Accountability requests that schools not wait until scores are loaded to report remaining GR records.

To accommodate a faster completion of GR data submission, if individual student scores have been returned to the school to support awarding a diploma to a student, please reach out to SchoolAccountability@doe.in.gov or contact Brenda Erbse at berbse@doe.in.gov for directions to complete GR data requirements.

All GR records that were not waiting for receipt of summer test scores should have already been submitted.

NEW: Graduate INTERS report - There is a new report in the STN Application Center to assist schools with the new GR-INTERs validations. (Remember if a student is reported as either using a graduation pathway of either CTE Concentrator or Industry Certification, then the system will be looking at the INTERS data for confirmation.) Find the report under **Data Verification/Reports/Graduate/INTERs Reported**.

This report shows the students for whom your corporation reported RT/EM during the 2018-2019 school year **AND** who have INTERS data in the most recently received file **(the file is being updated a couple of times a week)**.

- If a student who was reported on your RT/EM is not showing on the report, then the INTERS file has no data for that student. Please work with your CTE provider to correct the issue.
- If the student is showing a "Yes" in either the Perkins4 or the Perkins5 columns, then that student is eligible for the CTE Concentrator graduation pathway.
- If the student has a "Yes" in the Certification Result Column then that student is eligible for the Industry Certification graduation pathway.

Deadline for meeting 2019 graduation requirements is September 30, 2019. The

GR report closes 10/04/2019 at 4:00 pm EDT.

+++++

NEW Membership (DOE_ME) Field #10 - Virtual Student - students receiving virtual education 50% or more of the school day must be identified beginning with the 2020 Membership report as virtual students. Report “Y” in field 10.

*Note that if the student is **both** physically located within a school corp building **and** there is a school corp employee that is accountable for that student and the student’s course completion (or awarding of credit), then the student would **not be** considered a virtual student.*
