The Indiana Department of Education is excited to announce a no-cost workshop opportunity for Indiana schools on February 15. The *Concentrator Creation CTE Workshop: Aligning CTE Course Offerings to Workforce Needs & Harnessing Sector Partnerships to Localize Opportunities*, is a half day training opportunity for schools to dig deep into local workforce and CTE data. This process will allow us to evaluate CTE program alignment to workforce needs, consider opportunities for change to assist in aligning offerings to new graduation pathway requirements, learn about steps to take to localize career pathways, increase concentrator opportunities, and develop an action plan to build local sector partnerships.

In order to attend one of these workshop sessions, please register at the link below by February 12.
