Subject: Confirm Student Accommodations in Indiana IEP – Share with Educators

The Office of Special Education alongside Public Consulting Group (PCG) our vendor recently reviewed individualized education programs (IEPs) and service plans (SPs) and discovered a large number of errors that require updates prior to testing.

Special education directors received direct notification from PCG about these errors. In addition, a notice was sent out to directors of special education through our list-serve and an announcement was posted in Moodle. It is imperative that accommodations are verified now to ensure that all accommodations are correctly selected and saved in Indiana IEP and therefore reflected in TIDE before administering tests, including ILEARN Biology and U.S. Government ECAs, ISTEP+ Retest, ISTEP+, I AM, IREAD-3, and ILEARN.

Please review the directions previously provided by the Office of Special Education, Indiana IEP Resource Center, and PCG. If you have questions, please send a message to PCG using the message board in Indiana IEP system or contact the Indiana IEP Resource Center by telephone at (317)757-8297.
