Re: Panorama Distance Learning and Well-Being Survey

The Indiana Department of Education (IDOE) is partnering with Panorama Education to provide each district with the opportunity to collect valuable data as we all plan for the 2020-2021 school year. The two free new resources available to all districts are:

- (1) Parent/Caregiver Needs Survey
- (2) Staff Distance Learning and Well-Being Survey.

\*In addition to the surveys, you will be able to view your district-level reports within Panorama's online reporting platform.

**Link to access surveys:** <http://bit.ly/idoeremotelearning>

To start collecting responses from staff and family members, feel free to distribute the following link: <http://bit.ly/idoeremotelearning> .

You may want to share this link through newsletters, social media, district websites, emails, or text message communication. The survey window will close at the beginning of the summer.

If you would like to receive access to the response rate dashboard to monitor response rates for your district, [please complete this form.](#)

Please reach out to Christy Berger with any additional questions.
