

**MEMORANDUM**

To: Superintendents and Technology Directors

From: Jason Bailey, *Senior eLearning Strategist*, [jbailey@doe.in.gov](mailto:jbailey@doe.in.gov)

Date: August 24, 2018

Subject: Cybersecurity Training and Phishing Campaign Opportunity

As part of the Indiana Department of Education (IDOE) cybersecurity initiative for schools, we are accepting applications from districts who would like to provide awareness training to all staff members. The state will provide licenses at no cost to any districts willing to commit to using the training modules. To take advantage of this opportunity, technology directors may enroll at:  
<https://www.doe.in.gov/cybersecurity/cybersecurity-staff>

This initiative provides schools with a platform to perform internal phishing campaigns and gather data about email vulnerabilities.

For more information on all IDOE cybersecurity initiatives, visit:
