

**TO:** School Superintendents, Principals, and Corporation Test Coordinators  
**FROM:** Dr. Charity Flores, Director of Assessment  
**DATE:** August 3, 2018  
**SUBJECT:** ISTEP+ ECA and Grade 10 Test Administration Clarification

The Indiana Department of Education (IDOE) received communication from parents, schools and corporations related to the requirement for delivery of and remediation following ISTEP+ ECA and Grade 10 Test Administration Windows. I.C. 20-32-5 requires corporations and schools to deliver the first time and subsequent retest administrations for students needing the assessment results to fulfill the requirement for graduation. Students that meet the designated testing population during any window must be offered the opportunity to participate in the assessment, including retest opportunities. Please ensure that your corporation and school leaders are consistently communicating that the schools' obligation is to administer every opportunity to test.

Corporations and schools are additionally required under IC 20-32-8 to provide remediation to students not successful on the assessment. Remediation plans are defined locally, but must address deficiencies in content as indicated by ISTEP+ results or other measures. ISTEP+ ECA and Grade 10 blueprints are posted publicly to support remediation efforts by accessing this link: <https://www.doe.in.gov/assessment/high-school-assessment>.
