Re: RISE 3.0 State Model Plan for Teacher Evaluations Release

The Indiana Department of Education (IDOE) released RISE 3.0 as a model plan for teacher and principal evaluations. The RISE model plan was revised in collaboration with Indiana teachers and administrators to align with House Enrolled Act (HEA) 1002 (2020) which amends existing I.C. 20-28-11.5-4 by removing the requirement that student assessment results from statewide standardized assessments be used as part of a certified employee's annual evaluation performance plan.

IDOE has updated the [evaluation homepage](#) with the revised state plan and evaluation plan submission information.
