CURRENT YEAR ENROLLMENT DESCRIBED BY RACIAL/ETHNIC CATEGORIES (This must be recorded annually.)

Ethnic and racial classifications must be recorded separately. In the first two columns, record ethnicity (i.e. if the participants are “Hispanic or Latino” or “Not ...”). In the other columns, record the racial category of all participants. Calculate the percentage for each column by taking the total number of children in that category and dividing the number by “Total Enrollment”. **Note:** The first two columns (ethnicity) should equal the “Total Enrollment” and the percentages should add to 100%. The remaining six columns (race) should also equal the “Total Enrollment” and the percentages should add to 100%.
