- Organization mission
 - “At Edmentum, our expectation is ‘educator first.’ On the other side of every decision we make, every process we map, and every product we launch, is a kid and his or her teacher. We have a responsibility to them. This belief informs absolutely everything we do.” Jamie Candee, CEO

Please identify the area(s) that your organization supports:

- Effective Leaders
- **Ambitious Instruction**
- Collaborative Teachers
- Supportive Environment
- Involved Families

Approach

- Describe your organization’s school improvement services
 - [Edmentum’s powerful learning solutions](#) blend technology with individual teaching approaches, supporting you to meet your students where they are and guide them to reach their full potential. Together, we empower futures, one student at a time.
- Describe how your organization differentiates its services to meet the unique needs of districts and schools
 - Our local Indiana Professional Services team has extensive experience working with low-performing districts and schools across the nation, including districts and schools in the state of Indiana. Our staff understands that in order to best assist low-performing schools, it is critical to work closely with their administrators and teachers to support their strategic goals and customize their professional learning needs, focusing on the outcomes and goals identified. Edmentum’s highly talented team of expert former educators understands the importance of focusing on low-performing schools and uses their expertise to help build scalable implementation models within a district/school.

- Describe the attributes of your organization’s ideal partner district and/or school
 - The ideal partner will identify specific stakeholders at each site and at the district level to serve as points of contact for the Edmentum implementation team. The role of these individuals will be to support the Edmentum partnership in driving the day to day instructional practice and use of the programs.

Impact

- Describe your organization’s track record of dramatically improving schools or systems and/or radically increasing outcomes for targeted subgroups of students
 - Edmentum invests in research and third-party studies to ensure effectiveness, and we incorporate research-based principles to support students and schools in meeting their goals. We regularly conduct formal and informal research into the effectiveness of our programs.
