  • Sharing the housing of others due to loss of housing, economic hardship, or similar reason (75% of identified MV student in 2013-2014)
  • Living in motels, hotels, trailer parks, camping grounds due to lack of alternatives. (6% of identified MV students in 2013-2014)
  • Living in emergency or transitional shelters. (15% of identified MV students in 2013-2014)
Definition of Homelessness (continued)

• Living in a public or private space not designed for humans to live. Living in cars, parks, abandoned buildings, substandard housing (no water or electricity, mold, etc), bus or train stations.

• The definition includes migratory students who live in the abovementioned situations

• Beginning Dec. 10, 2016, “those awaiting foster care placement” are not included in the definition.
Causes

• Housing shortage
• Job loss
• Illness
• Increasing cost of living & frozen wages
• Natural disasters
• Family discord

Impact on Students

• Higher than average rates of
  • Emotional, behavioral, & health issues
  • Developmental delays
  • Grade retention & lower rates of academic success
  • Hunger & food insecurity
  • Exposure to domestic violence
• Correlation between adverse childhood experiences & adult homelessness
Unaccompanied Homeless Youth

• Definition: Child or youth who meets the McKinney-Vento definition of homelessness and is not in the physical custody of a parent or guardian. 11434a(6)

• Youth run away due to abuse or neglect.
  • 40-60% of unaccompanied youth were abused physically at home.
  • 17-25% of unaccompanied youth were abused sexually at home.
  • Research links parental substance abuse and youth running away from home.

• 67% of students say they were uncomfortable telling people at school about their homelessness and asking for help.
Unaccompanied Homeless Youth

• Why is school so important for unaccompanied youth?

• A: School is often the most “normal” part of a homeless youth's day. School provides youth with many opportunities to grow and succeed. Schools offer academics, adult and peer support, meals, basic medical and mental health services, sports and clubs, and other activities. Schools can also connect youth to other resources and supports available in the community. They can teach youth the skills they need to find safety and security as adults. Many youth understand education is a way out of poverty.
Impacts of Homelessness

What Do We Mean by “Trauma”?

“Individual trauma results from an event, series of events or set of circumstances that is experienced by an individual as physically or emotionally harmful or life threatening and that has lasting adverse effects on the individual’s functioning and mental, physical, social, emotional or spiritual well-being.”
Addressing Trauma

• Homelessness is inherently traumatic and frequently violent. SEAs and LEAs should train staff on the traumatic effects of homelessness and specific strategies to provide trauma-informed care.

• SEAs and LEAs should ensure school personnel consider issues related to homelessness prior to taking disciplinary action.
Trauma-Informed Approach

- Realizes the widespread impact of trauma and understands potential paths for recovery
- Recognizes signs and symptoms of trauma in patients or clients, families, staff, and others involved in the system
- Responds by fully integrating knowledge about trauma into policies, procedures, and practices
- Seeks to actively resist re-traumatization
Statistics in Indiana

Definition

What do we mean by human trafficking?

Human trafficking is a crime involving the exploitation of someone for the purpose of compelled labor or a commercial sex act through the use of force, fraud, or coercion. Where a person younger than 18 is induced to perform a commercial sex act, it is a crime regardless of whether there is any force, fraud, or coercion.

—The Trafficking Victims Protection Act
Types of Trafficking

Sex Trafficking

Labor Trafficking

• Sex Trafficking: When a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or

• Labor Trafficking: The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.
Three Elements of Trafficking

• In order to be considered trafficking on both federal and state levels, all three of these elements must be identified:
  ✓ Recruiting Harboring, Moving, or Obtaining A person

Human Trafficking Examples

Sex Trafficking Example: A 17 year old girl* runs away from her abusive family for the second time. She meets a 20-something man at the mall who befriends her and offers to buy her something pretty. Their romantic relationship grows slowly as she becomes more dependent upon him and believes he loves her. He starts to ask her to do things for him, eventually leading to pimping her out for profit and resorting to violence and psychological trauma to control her.

Labor Trafficking Example: After losing his factory job*, a 35-year old man answers a job advertisement in the local newspaper for skilled welders. The ad promises affordable, safe housing and good pay. However, after being coerced into signing a “contract” in English, which he does not speak, he is taken to his home: a 2-bedroom apartment housing 8 other men, costing him $600 per month. The men are transported to a restaurant where they work 15 hours a day and their living costs always outnumber their pay, causing them to become burdened by an ever increasing debt.
Case Study: Liza

- Grew up in foster care with abusive foster parents and was first forced into sex trafficking at age 11
- Ran away from foster home frequently
- Left foster home permanently at age 12
- Manipulated by trafficker into sex trafficking
- Abused physically and emotionally by her trafficker
Case Study: Simon

• Agreed to work a day job on a fishing vessel but was forced to remain aboard for 3 months

• Injured his foot while on board, received no medical treatment, and was forced to continue working

• When his foot became so infected he could no longer work, Simon’s traffickers left him in Honolulu

• Traffickers left him without money or papers, and threatened that if he went to the authorities, he would be arrested for entering the country illegally

Common Relationships Between Victims and Traffickers

Your Role in Screening for Trafficking

• Gather information necessary to identify the services your student/victim needs
• Use trauma-informed screening; avoid asking for a detailed history of their exploitation
• Screen in a safe, neutral location
• Provide interpreter services as needed
Screening Questions

Human trafficking screening tools should collect information to determine:

- Emergency needs
- Medium-term needs
- Long-term needs

Avoid talking in depth about a person’s exploitation. Screening should be focused only on assessing the person’s needs and determining how you can meet them.
Survivor-Centered Screening Techniques

1. Create a setting conducive to a victim-centered, trauma-informed screening

2. Get informed consent prior to the screening

3. Inform the victim of the purpose of the screening and the screening process

4. Discuss confidentiality and mandatory reporting
Separating the Patient or Client From a Possible Trafficker

When should an individual be separated from a suspected trafficker?

What reason should be given?

Who will do the separating?

What safety measures are needed?
Case Study: Siara

- Visited emergency department with severe head injury
- Accompanied by an older man claiming to be her uncle
- Remained quiet during her examination; uncle answered all of Paul’s questions
- Wouldn’t answer when Paul spoke directly to her and seemed distressed by the attention
Case Study: Siara

What are the red flags of trafficking in this situation?

If you were Paul, what would you do next?
Screening and Identification

• **VICTIM** Human Trafficking reaches every culture and demographics. Regardless of their demographics, victims are vulnerable in some way, and the traffickers will use their particular vulnerability to exploit the victim.

✓ Victims can be:
  • Foreign born adults
  • US Citizen adults
  • Foreign born children *
  • US Citizen children *
Human Trafficking and Technology

Social Networking -- Pimps hit social networks to recruit underage girls to engage in commercial sex
✓ The pimps "searched Facebook for attractive young girls, and sent them messages telling them that they were pretty and asking if they would like to make some money"
✓ If a girl expressed interest, a gang member would arrange to meet up. At that point, participation stopped being voluntary.

The pimp may have a collection of fake Facebook accounts.
✓ On one of them, for "Rain Smith" investigators found more than 800 messages sent out to potential targets.
