PATINS Project Specialists

Julie Kuhn, OTR

**Jessica Conrad,
M.A., CCC-SLP**

Guiding questions (why and how)

1. How can we facilitate improved communication skills in students with complex communication needs?
2. Why is it important for teams to select the right AAC assessments?

First:

Gather team and information about student, environment, and tasks

Decision point:

We have enough information = go to a data-driven trial

We do NOT have enough information = assess student

Demonstration

- [Augmentative & Alternative Communication Assessment List](#)

Helps teams determine which tool may be appropriate for determining needs and abilities, based on best practices.
