

Indiana Academic Standards
English/Language Arts: Grades K-5

I. Introduction

The college and career ready Indiana Academic Standards for English/Language Arts are the result of a process designed to identify, evaluate, synthesize, and create the most high-quality, rigorous standards for Indiana students. The definitions that guided this work were created by the Indiana Education Roundtable, Department of Education, Center for Education & Career innovation, Commission for Higher Education and the Department of Workforce Development. The definition for college and career ready by this group and used throughout this process is as follows: “College-and – career ready means an individual has the knowledge, skills and abilities to succeed in post-secondary education and economically-viable career opportunities.” Additionally Public Law 31-2014 [SEA 91] defines college and career readiness educational standards as “the standards that a high school graduate must meet to obtain the requisite knowledge and skill to transition without remediation to post-secondary education or training, and ultimately into a sustainable career.”

Standards Process

The Indiana Academic Standards were created through a collaborative process with input from teams of K-12 educators and parents representing school corporations located throughout the state of Indiana; professors of higher education, representing a wide range of Indiana’s public and private colleges and universities; and representatives from Indiana businesses and industries. The purpose of the standards process was to design college and career ready standards that would ensure students who complete high school in Indiana are ready for college and careers.

History

Public Law 286 was passed by the Indiana General Assembly in 2013, which created Indiana Code 20-19-2-14.5. The law requires the Indiana State Board of Education to perform a comprehensive review of Indiana’s current standards (which were the 2010 Common Core State Standards¹) and to adopt college and career ready educational standards no later than July 1, 2014.

In the fall of 2013, the Indiana Department of Education established Technical Teams, which were comprised of K-12 educators in English/Language Arts and Mathematics. The Technical Teams were responsible for reviewing the existing Indiana Academic Standards (Common Core State Standards) and providing suggestions for edits and word changes to improve the clarity and progression of the standards. The Department also created Advisory Teams, which were made up of educators from k-12, parents, community members, and higher education institutions across Indiana. The Advisory Teams were responsible for reviewing the work of the Technical Teams and providing additional input.

Evaluation Process

In January of 2014, the Indiana Department of Education, in collaboration with the Indiana State Board of Education, established Evaluation Teams. The Evaluation Teams were responsible for additional layers beyond the work of the Technical and Advisory Teams. The Evaluation Teams were tasked with conducting a comprehensive analysis of several sets of standards, with the goal of identifying the standards that most clearly aligned with the content and skills that Hoosier students would need to know and be able to do in order to be college and career ready.

Membership for the Evaluation Teams was gleaned from individuals who had previously participated on either a Technical Team or an Advisory Team. The Evaluation Team members were selected for their subject matter expertise (in English/Language Arts or Mathematics) and their classroom teaching experience. The Evaluation Teams were made up of K-12 educators who represented a wide variety of Indiana school corporations with over 445 years of combined classroom teaching experience, and higher education subject matter experts in English/Language Arts and Mathematics, representing Indiana's public and private institutions of higher education.

The Evaluation Teams met for the first time in February of 2014. The English/Language Arts evaluation teams were given the E/LA Common Core State Standards, as well as Indiana's 2006 E/LA Academic Standards and the standards created by the National Council of Teachers of English. The Mathematics evaluation teams were given the Mathematics Common Core State Standards, as well as Indiana's 2000 Math Academic Standards, Indiana's 2009 Math Academic Standards, and the standards created by the National Council of Teachers of Mathematics.

The panel was instructed to independently evaluate each set of standards, identifying whether the standard was wholly aligned with what a Hoosier student would need to know and be able to do in order to be college and career ready; partially aligned with what a Hoosier student would need to know and be able to do in order to be college and career ready; or not aligned with what a Hoosier student would need to know and be able to do in order to be college and career ready. The results of the evaluation were processed according to a forced consensus requirement—a majority requirement was calculated for each group of standards that was reviewed. Any standard that received a fully aligned rating by the majority of reviewers was marked as fully aligned; any standard that received a not aligned rating by the majority of reviewers was marked as not aligned; and any standard that received a partially aligned rating by the majority, or did not have a majority result, was marked as partially aligned.

Once the evaluations were complete, the results were compiled, and the Evaluation Teams were brought together to conduct a consensus process. The consensus process was blind (meaning that the Evaluation Team members did not know the origin of the standards that they were discussing). Through the consensus process, the Evaluation Teams were asked to select the standards that best and most thoroughly represented what students should know and be able to do in various areas of English/Language Arts and Mathematics in order to be college and career ready. The Evaluation Teams selected the standards that they found to be most appropriate; combined standards to create a more appropriate, rigorous, or clear standard; or, if they determined that gaps existed, wrote standards, or reviewed standards from other states (for example, the English/Language Arts Evaluation Teams reviewed the 2010 draft standards from Massachusetts).

Once the Evaluation Teams had selected the standards (from Common Core State Standards, Indiana Academic, or other states) or had written standards where they found gaps, the list of knowledge and skills identified as necessary for students to be college and career ready was posted for public comment.

Public Comment, Public Hearings, and National Expert Review

The draft college and career ready Indiana Academic Standards were posted for the public to review on February 19, 2014. The public was invited to provide comment through March 12. Over 2000 public comments were received. There were also three public hearings, which were held in southern, central, and northern Indiana, to receive public comment on the draft standards.

The comments from both the online public comment and the public hearings were compiled, reviewed and used to contribute to further iterations of the standards.

In addition, a variety of national experts were contacted to review the draft standards posted on February 19. The results of the reviews were discussed, and portions of the reviews were incorporated into further iterations of the standards.

Reconvening of Evaluation Teams

The Evaluation Teams were reconvened in March of 2014. The teams were tasked with incorporating public comment, and national expert review to ensure that the draft standards were aligned across grade levels and showed appropriate progression from grade to grade. The Evaluation Teams were also tasked with editing and revising standards for clarity, and addressing any other public comments and national expert review around grade appropriateness, bias, embedded pedagogy, or other factors.

Once the Evaluation Teams completed their reviews, the results were sent to the College and Career Ready (CCR) Panels for final review and approval. The results were also shared with additional national experts, who provided reviews. The results of those reviews were analyzed and synthesized and shared with the CCR Panels.

College and Career Ready (CCR) Panels

The College and Career Ready Panels were created in order to ensure that the standards that Indiana developed were aligned with what colleges, universities, industries, and businesses deem necessary for students to be college and career ready. The CCR Panels were made up of subject matter experts from a variety of Indiana public and private colleges and universities, as well as individuals representing Indiana's businesses and industries.

The CCR Panels were brought together in late March of 2014 to review the draft Indiana Academic Standards that had been reviewed and vetted by the Evaluation Teams in mid-March of 2014. The CCR Panels were tasked with reviewing the standards from 12th grade through kindergarten to ensure that the standards were clear and understandable; aligned across grade levels, showing appropriate progression from grade to grade; and designed to prepare students for college and career readiness. The CCR panels met several times throughout the end of March 2014 and early April 2014 to accomplish this task. At their last meeting, the CCR panel members were asked to sign-off on the draft standards, indicating whether, in their professional opinion, the standards were poised to prepare Hoosier students to be college and career ready.

Indiana Academic Standards

The culmination of the efforts of the Technical Teams, Advisory Teams, Evaluation Teams, and CCR Panels is the college and career ready Indiana Academic Standards that are college and career ready. While many of the standards originated from various sources, including the Common Core State Standards; 2000, 2006, and 2009 Indiana Academic Standards; Massachusetts 2010 Draft English/Language Arts Standards; Virginia Standards of Learning; Nebraska English/Language Arts Standards; the National Council of Teachers of Mathematics; and the National Council of Teachers of English, a number of original standards were also written by members of the Evaluation Teams or CCR Panels.

The process was designed to identify the clearest, most rigorous, and best aligned standards in Mathematics and English/Language Arts to ensure that Hoosier students will graduate meeting the definitions for college and career as defined in Indiana's processes.

What are college and career ready Indiana Academic Standards?

The college and career ready Indiana Academic Standards are designed to help educators, parents, students, and community members understand what students need to know and be able to do at each grade level, and within each content strand, in order to exit high school to be college and career ready. The Indiana Academic Standards for English/Language Arts demonstrate what students should know and be able to do in the areas of Reading, Writing, Speaking and Listening, and Media Literacy. The Indiana Academic Standards for Mathematics demonstrate what students should know and be able to do in the areas of K-8 Mathematics; Algebra I, II, and Geometry; and higher-level high school Mathematics courses. The Indiana Academic Standards for Content Area Literacy (History/Social Studies and Science/Technical Subjects) indicate ways in which students should be able to incorporate literacy skills into various content areas at the 6-12 grade levels.

What are the college and career ready Indiana Academic Standards NOT?

1). The standards are not curriculum.

While the standards may be used as the basis for curriculum, **the college and career ready Indiana Academic Standards are not a curriculum.** Therefore, identifying the sequence of instruction at each grade—what will be taught and for how long—requires concerted effort and attention at the corporation and school levels. While the standards may have examples embedded, and resource materials may include guidelines and suggestions, the standards do not prescribe any particular curriculum. Curriculum is determined locally by a corporation or school and is a prescribed learning plan toward educational goals that includes curricular tools and instructional materials, including textbooks, that are selected by the corporation/school and adopted through the local school board.

2). The standards are not instructional practices.

While the standards demonstrate what Hoosier students should know and be able to do in order to be prepared for college and careers, the standards are not instructional practices. The educators and subject matter experts that worked on the standards have taken care to ensure that the standards are free from embedded pedagogy and instructional practices. **The standards do not define how teachers should teach.** The standards must be complemented by well-developed, aligned, and appropriate curricular materials, as well as robust and effective instructional best practices.

3). The standards do not necessarily address students who are far below or far above grade-level.

The standards are designed to show what the average Hoosier student should know and be able to do in order to be prepared for college and career. However, some students may be far below grade level or in need of special education, and other students may be far above grade level. The standards do not provide differentiation or intervention methods necessary to support and meet the needs of these students. It is up to the district, school, and educators to determine the best and most effective mechanisms of standards delivery for these students.

4). The standards do not cover all aspects of what is necessary for college and career readiness

While the standards cover what have been identified as essential skills for Hoosier students to be ready for college and careers, the standards are not—and cannot be—an exhaustive list of what students need in order to be ready for life after high school. Students, especially younger students, require a wide range of physical, social, and emotional supports in order to be prepared for the rigors of each educational progression (elementary grades to middle grades; middle grades to high school; and high school to college or career).

II. Acknowledgements

The college and career ready Indiana Academic Standards could not have been developed without the time, dedication, and expertise of Indiana’s K-12 teachers, parents higher education professors, and representatives of Indiana business and industry. Additionally, the members of the public, including parents, community members, policymakers, and educators who took time to provide public comments, whether through the online comment tool or in person at the various public hearings, have played a key role in contributing to the Indiana Academic Standards.

The Indiana Department of Education and Indiana State Board of Education would like to thank Ms. Sujie Shin of the Center on Standards and Assessment Implementation for providing expert facilitation throughout the process and acting in an advisory capacity. The Department and Board would also like to thank the individuals and organizations who provided national expert reviews of the draft standards.

We wish to specially acknowledge the members of the Technical Teams, Advisory Teams, Evaluation Teams, and College and Career Ready Panels who dedicated hundreds of hours to the review, evaluation, synthesis, rewriting, and creation of standards designed to be of the highest quality so that our Hoosier students who are ready for college and careers.

READING

Guiding Principle: *Students transition from “learning to read” to “reading to learn.” Students develop and apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts. They read a wide range of literature in several genres from a variety of time periods and*

cultures from around the world to build an understanding of the many dimensions (e.g., philosophical, ethical, aesthetic) of human experience. They draw on their prior experience, their interactions with other readers and writers, their knowledge of word meaning and of other texts, their word identification strategies, and their understanding of textual features (e.g., sound-letter correspondence, sentence structure, context, graphics).ⁱ

READING: Foundations

There are four key areas found in the Reading: Foundations section for grades K-5: Print Concepts, Phonological Awareness, Phonics, and Fluency. By demonstrating the skills listed in each section, students should be able to meet the Learning Outcome for Reading: Foundations.

In Reading: Foundations, students are expected to do the following:

LEARNING OUTCOME	RF.1: LEARNING OUTCOME FOR READING FOUNDATIONS					
	Develop, build, and apply knowledge of foundational reading skills					
	KINDERGARTEN	GRADE 1	GRADE 2	GRADE 3	GRADE 4	GRADE 5
	K.RF.1: Understand and apply knowledge of print concepts, phonics, phonemic awareness, vocabulary, and fluency and comprehension as a foundation for developing reading skills.	1.RF.1: Develop an understanding of the five components of reading (print concepts, phonemic awareness, phonics, vocabulary, and fluency and comprehension) to build foundational reading skills.	2.RF.1: Demonstrate an understanding of the five components of reading (print concepts, phonemic awareness, phonics, vocabulary, and fluency and comprehension) to build foundational reading skills.	3.RF.1: Apply foundational reading skills to build reading fluency and comprehension.	4.RF.1: Apply foundational reading skills to demonstrate reading fluency and comprehension.	5.RF.1: Apply foundational reading skills to demonstrate reading fluency and comprehension.
PRINT CONCEPTS	RF.2: PRINT CONCEPTS					
	Demonstrate understanding of the organization and basic features of print, including that printed materials provide information and tell stories

	Decode and read words by applying phonics and word analysis skills					
PHONICS	KINDERGARTEN	GRADE 1	GRADE 2	GRADE 3	GRADE 4	GRADE 5
	K.RF.4.1: Use letter-sound knowledge to decode the sound of each consonant (e.g., <i>dog = /d/ /g/; soap = /s/ /p/</i>).	1.RF.4.1: Use letter-sound knowledge of single consonants (hard and soft sounds), short and long vowels, consonant blends and digraphs, vowel teams (e.g., <i>ai</i>) and digraphs, and r-controlled vowels to decode phonetically regular words (e.g., <i>cat, go, black, boat, her</i>), independent of context.	2.RF.4.1: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	3.RF.4.1: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	4.RF.4.1: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	5.RF.4.1: <i>Students are expected to build upon and continue applying concepts learned previously.</i>
	K.RF.4.2: Blend consonant-vowel-consonant (CVC) sounds to make words.	1.RF.4.2: Decode one-syllable words in the major syllable patterns (CVC, CVr, V, VV, VCe), independent of context.	2.RF.4.2: Use knowledge of the six major syllable patterns (CVC, CVr, V, VV, VCe, Cle) to decode two-syllable words, independent of context.	3.RF.4.2: Understand the six major syllable patterns (CVC, CVr, V, VV, VCe, Cle) to aid in decoding unknown words.	4.RF.4.2: Use the six major syllable patterns (CVC, CVr, V, VV, VCe, Cle) to read unknown words.	5.RF.4.2: <i>Students are expected to build upon and continue applying concepts learned previously.</i>
	K.RF.4.3: Recognize the long and short sounds for the five major vowels.	1.RF.4.3: Apply knowledge of final –e and common vowel teams (vowel digraphs) for representing long vowel sounds.	2.RF.4.3: Apply knowledge of short and long vowels (including vowel teams) when reading regularly spelled one-syllable words.	3.RF.4.3: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	4.RF.4.3: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	5.RF.4.3: <i>Students are expected to build upon and continue applying concepts learned previously.</i>

	K.RF.4.4: Read common high-frequency words by sight (e.g., <i>a, my</i>).	1.RF.4.4: Recognize and read common and irregularly spelled high-frequency words by sight (e.g., <i>have, said</i>).	2.RF.4.4: Recognize and read common and irregularly spelled high-frequency words and abbreviations by sight (e.g., <i>through, tough; Jan., Fri.</i>).	3.RF.4.4: Read grade-appropriate words that have blends (e.g., <i>walk, play</i>) and common spelling patterns (e.g., <i>qu-</i> ; doubling the consonant and adding <i>-ing</i> , such as <i>cut/cutting</i> ; changing the ending of a word from <i>-y</i> to <i>-ies</i> to make a plural).	4.RF.4.4: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	5.RF.4.4: <i>Students are expected to build upon and continue applying concepts learned previously.</i>
	K.RF.4.5: Identify similarities and differences in words (e.g., <i>word endings, onset and rime</i>) when spoken or written.	1.RF.4.5: Read words in common word families (e.g., <i>-at, -ate</i>).	2.RF.4.5: Know and use common word families when reading unfamiliar words (e.g., <i>-ale, -est, -ine, -ock</i>).	3.RF.4.5: Know and use more difficult word families when reading unfamiliar words (e.g., <i>-ight</i>).	4.RF.4.5: <i>Students are expected to build upon and continue applying concepts learned previously.</i>	5.RF.4.5: <i>Students are expected to build upon and continue applying concepts learned previously.</i>
	K.RF.4.6: <i>Standard begins at first grade.</i>	1.RF.4.6: Read grade-appropriate root words and affixes including plurals, verb tense, comparatives (e.g., <i>look, -ed, -ing, -s, -er, -est</i>), and simple compound words (e.g., <i>cupcake</i>) and contractions (e.g., <i>isn't</i>).	2.RF.4.6: Read multi-syllabic words composed of roots, prefixes, and suffixes; read contractions, possessives (e.g., <i>kitten's, sisters'</i>), and compound words.	3.RF.4.6: Read multi-syllabic words composed of roots and related prefixes and suffixes; read irregular contractions (e.g., <i>will not = won't</i>) and possessives (e.g., <i>children's, Dennis's</i>).	4.RF.4.6: Use knowledge of all letter-sound correspondences, syllabication patterns, and morphology (e.g., <i>roots and affixes</i>) to read accurately unfamiliar multi-syllabic words in context.	5.RF.4.6: Use knowledge of all letter-sound correspondences, syllabication patterns, and morphology (e.g., <i>roots and affixes</i>) to read accurately unfamiliar multi-syllabic words in context.
FLUE NCV	RF.5: FLUENCY					
	Demonstrate accuracy and fluency when reading

READING: *Literature*

There are three key areas found in the Reading: Literature section for grades K-5: Key Ideas and Textual Support, Structural Elements and Organization, and Connection of Ideas. By demonstrating the skills listed in each section, students should be able to meet the Learning Outcome for Reading: Literature.

In Reading: Literature, students are expected to do the following:

READING: Nonfiction

There are three key areas found in the Reading: Nonfiction section for grades K-5: Key Ideas and Textual Support, Features and Structure, and Connection of Ideas. By demonstrating the skills listed in each section, students should be able to meet the Learning Outcome for Reading: Nonfiction.

In Reading: Nonfiction, students are expected to do the following:

RN.1: LEARNING OUTCOME FOR READING NONFICTION Read and comprehend a variety of nonfiction independently and proficiently						
LEARNING OUTCOME	KINDERGARTEN	GRADE 1	GRADE 2	GRADE 3	GRADE 4	GRADE 5
		K.RN.1: Actively engage in group reading activities with purpose and understanding.	1.RN.1: With support, read and comprehend nonfiction that is grade-level appropriate.	2.RN.1: Read and comprehend a variety of nonfiction within a range of complexity appropriate for grades 2-3. By the end of grade 2, students interact with texts proficiently and independently at the low end of the range and with scaffolding as needed at the high end.	3.RN.1: Read and comprehend a variety of nonfiction within a range of complexity appropriate for grades 2-3. By the end of grade 3, students interact with texts proficiently and independently.	4.RN.1: Read and comprehend a variety of nonfiction within a range of complexity appropriate for grades 4-5. By the end of grade 4, students interact with texts proficiently and independently at the low end of the range and with scaffolding as needed at the high end.
RN.2: KEY IDEAS AND TEXTUAL SUPPORT Extract and construct meaning from nonfiction texts using a range of comprehension skills						
KEY IDEAS AND TEXTUAL SUPPORT	KINDERGARTEN	GRADE 1	GRADE 2	GRADE 3	GRADE 4	GRADE 5
	K.RN.2.1: With support, ask and answer questions about important elements of a text (e.g., <i>events, topics, concepts</i>).	1.RN.2.1: Ask and answer questions about key details to clarify and confirm understanding of a text.	2.RN.2.1: Ask and answer questions about the main idea and supporting facts and details in a text to confirm understanding.	3.RN.2.1: Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.	4.RN.2.1: Refer to details and examples in a text when explaining what a text says explicitly and when drawing inferences from the text.	5.RN.2.1: Quote accurately from a text when explaining what a text says explicitly and when drawing inferences from the text.
	K.RN.2.2: With support, retell the main idea and key details of a text.	1.RN.2.2: Retell main ideas and key details of a text.	2.RN.2.2: Identify the main idea of a multiparagraph text and the topic of each paragraph.	3.RN.2.2: Determine the main idea of a text; recount the key details and explain how they support the main idea.	4.RN.2.2: Determine the main idea of a text and explain how it is supported by key details; summarize the text.	5.RN.2.2: Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text.

WRITING

Guiding Principle: *Students develop and employ a wide range of strategies as they write and use different writing process elements appropriately to communicate with different audiences for a variety of purposes. Students experiment with different modes of writing to develop their craft and hone their skills as writers. Students conduct simple research on issues and interests by generating ideas and questions, and by posing problems. They gather, evaluate, and synthesize information and data from a variety of sources to communicate their discoveries in ways that suit their purpose and audience.ⁱⁱ*

WRITING:

There are five key areas found in the Writing section for grades K-5: Handwriting, Writing Genres, the Writing Process, the Research Process, and Conventions of Standard English. By demonstrating the skills listed in each section, students should be able to meet the Learning Outcome for Writing.

Note: The teaching of cursive writing that is included in this section is to be taught at the discretion of local decision. The Indiana Department of Education recommends the teaching of cursive writing to students in grades 3 and 4, not only for the purpose of allowing students to use the form of writing most appropriate to them and the setting, but for the more important purpose of being able to read cursive writing. Students need to be able to read cursive writing as they utilize primary documents (e.g., *historical documents, letters, etc.*).

In Writing, students are expected to do the following:

W.1: LEARNING OUTCOME FOR WRITING						
Write effectively for a variety of tasks, purposes, and audiences

MEDIA LITERACY

Guiding Principle: *Students develop critical thinking about the messages received and created by media. Students recognize that media are a part of culture and function as agents of socialization and information, and they develop understanding that people use individual skills, beliefs, and*

experiences to construct their own meanings from media messages. Students develop media literacy skills in order to become more informed, reflective, and engaged participants in society.^{iv}

MEDIA LITERACY:

By demonstrating the skills listed in Media Literacy, students should be able to meet the Learning Outcome for Media Literacy.

In Media Literacy, students are expected to do the following:
