

BE A HERO.

SAVE A LIFE.

Indiana

**DID YOU KNOW THAT ONE ORGAN AND TISSUE DONOR CAN SAVE
AND HEAL UP TO 83 LIVES?**

This goal of this presentation is to provide Indiana teachers with the appropriate educational materials to meet:

Education Article 30. Chapter 5. Mandatory Curriculum

IC 20-30-5-16: Human Organ Program Instruction

Each school corporation shall include in the school corporation's high school health education curriculum instruction regarding human organ donor program as adopted by the state board, including:

- 1. The purpose of the human organ donor program**
- 2. The statewide and nationwide need for human organ donations**
- 3. The procedure for participation in the human organ donor program**

COMMON DONATION VOCABULARY

- **Organ Donor** - A person who died and was able to donate their organs to save up to eight lives
(Organs that can be transplanted include kidneys (2), lungs (2), heart, liver, pancreas and small intestine)
- **Tissue Donor** - A person who died and was able to donate tissue grafts to provide healing for as many as 75 people
(Tissue transplants include bone grafts for cancer patients, skin grafts for burn victims, ligaments to restore mobility, heart valves for blood flow and corneas to restore sight)
- **Living Donor** - A living person who chooses to donate one kidney or part of their liver, lung or pancreas to help someone waiting for a lifesaving organ transplant
(A living donor can still lead an active healthy life)
- **Recipient** - A person who receives the gift of an organ or tissue transplant from a donor hero
- **Transplant Waiting List** - A national list of people waiting for a lifesaving organ transplant
- **Recovery** - A surgery to remove lifesaving organs and tissue grafts for transplantation

There are more than 100,000 adults and children waiting for a lifesaving organ transplant in our country. That's enough people to fill Lucas Oil Stadium two times!

PATIENTS AWAITING TRANSPLANT

Organ	National	Indiana
Heart	4,007	69
Heart/Lung	43	0
Lung	1,402	9
Liver	13,902	83
Kidney	95,400	1,117
Kidney/Pancreas	1,675	14
Pancreas	895	12
Intestine	250	4

An average of **22 people** die each day in our country because the lifesaving organ transplant they needed was not available in time.

WHAT CAN I DO TO HELP?

- Talk to your family about organ and tissue donation
- Educate others about this important topic
- After discussing with your parents, decide if you want to register as a donor

HOW DO PEOPLE REGISTER AS A DONOR?

- At a License Branch (BMV)
- Online at [DonateLifeIndiana.org](https://www.donatelifeindiana.org)
- On the “Health app” on an iPhone

GIFTS OF ORGAN AND TISSUE DONATION

One donor

can save up to **8** lives through organ donation

and heal more than **75** people through tissue donation.

**I GET TO
ENJOY SPORTS,
HIGH SCHOOL
AND BEING A
HOOSIER
TEENAGER**

**BECAUSE SOMEONE SAID 'YES' TO
BEING A DONOR AND SAVED
MY LIFE.**

DAVID PECK, INTESTINE RECIPIENT

DONATELIFEINDIANA.ORG

**This is David Peck, a
teenager from Indiana.**

**He received one of the first small
intestine transplants in our state
at just two years old. His life was
saved because of an organ donor
hero.**
