APPENDIX A
TEACHER RESOURCE GUIDE -- Psychology
UPDATED JUNE 2015

This Teacher Resource Guide has been developed to provide supporting materials to help educators successfully implement the social studies standards. These resources are provided to help you in your work to ensure all students meet the rigorous learning expectations set by the Academic Standards. Use of these resources is optional – teachers should decide which resource will work best in their school for their students.

This resource document is a living document and will be frequently updated. Please send any suggested links and report broken links to:

Bruce Blomberg
Social Studies Specialist
Indiana Department of Education
bblomberg@doe.in.gov
317-232-9078

The links compiled and posted in this Resource Guide have been provided by the Department of Education and other sources. The DOE has not attempted to evaluate any posted materials. They are offered as samples for your reference only and are not intended to represent the best or only approach to any particular issue. The DOE does not control or guarantee the accuracy, relevance, timeliness, or completeness of information contained on a linked website; does not endorse the views expressed or services offered by the sponsor of a linked website; and cannot authorize the use of copyrighted materials contained in linked websites. Users must request such authorization from the sponsor of the linked website.

Useful Links That Relate to ALL Topics

The following websites have compiled useful lists of links and resources related to multiple topics in psychology:

- [http://www.apa.org/index.aspx](http://www.apa.org/index.aspx) American Psychological Association - By doing a search for the topic you are interested in, you can find a variety of research articles and lesson ideas. Some resources are only available to teacher affiliates of APA.
- [http://teachpsych.org/](http://teachpsych.org/) The Society for the Teaching of Psychology (STP) has numerous teacher resources in all areas of Psychology
- [http://www.apa.org/ed/precollege/topss/index.aspx](http://www.apa.org/ed/precollege/topss/index.aspx) Teachers of Psychology in Secondary Schools has a variety of teacher resources. A membership may also be required, but the resources are well worth the annual fee.
- [http://www.cwu.edu/~warren/today.html](http://www.cwu.edu/~warren/today.html) Today in the History of Psychology allows you to search for key events in psychology that happened over the years. Great for bell-ringer activities.
- [http://www.psychologicalscience.org/](http://www.psychologicalscience.org/) The Association for Psychological Science has links to recent research and recent stories of psychology in the news
- [http://psych.athabascau.ca/html/aup/demos.shtml](http://psych.athabascau.ca/html/aup/demos.shtml) The Center for Psychological Resources contains class demonstrations on various topics in psychology
- [http://www.apppsychology.com/](http://www.apppsychology.com/) The AP Psychology Community is a retro-style website that offers various activities to entertain and educate Psychology students.
- [http://psych.hanover.edu/aps/teaching.html](http://psych.hanover.edu/aps/teaching.html) Hanover has excellent resources for teaching all areas of Psychology organized by topic
- [http://www.ted.com/topics/psychology](http://www.ted.com/topics/psychology) TED: Talks Psychology – videos

  How to Think Like a Psychologist – pdf
APPENDIX B

Depth of Knowledge (DOK) Levels

Level One (Recall)
- Define
- Calculate
- Arrange
- Recall
- Connect
- Apply Concepts
- Critique
- Analyze
- Create
- Prove
- Label
- Memorize
- State
- Tabulate
- Identify
- Who, What, When, Where, Why
- Name
- Report
- Infer
- Categorize
- Collect and Display
- Identify Patterns
- Graph
- Classify
- Separate
- Cause/Effect
- Estimate
- Compare
- Relate
- Use Context Cues
- Make Observations
- Summarize
- Show
- Distinguish
- Use

Level Four (Extended Thinking)
- Revise
- Apprise
- Critique
- Formulate
- Hypothesize
- Draw Conclusions
- Cite Evidence
- Differentiate
- Develop a Logical Argument
- Use Concepts to Solve Non-Routine Problems
- Explain Phenomena in Terms of Concepts
- Investigate

Level Two (Skill/Concept)
- List
- Illustrate
- Measure
- Report
- Name
- Use
- Quote
- Match
- Construct
- Overall
- Modify
- Predict
- Interpret
- Relate
- Use Context Cues
- Make Observations
- Summarize
- Show
- Distinguish
- Use

Level Three (Strategic Thinking)
- List
- Illustrate
- Measure
- Report
- Name
- Use
- Quote
- Match
- Construct
- Overall
- Modify
- Predict
- Interpret
- Relate
- Use Context Cues
- Make Observations
- Summarize
- Show
- Distinguish
- Use

<table>
<thead>
<tr>
<th>Level One Activities</th>
<th>Level Two Activities</th>
<th>Level Three Activities</th>
<th>Level Four Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recall elements and details of story structure, such as sequence of events, character, plot and setting. Conduct basic mathematical calculations. Label locations on a map. Represent in words or diagrams a scientific concept or relationship. Perform routine procedures like measuring length or using punctuation marks correctly. Describe the features of a place or people.</td>
<td>Identify and summarize the major events in a narrative. Use context cues to identify the meaning of unfamiliar words. Solve routine multiple-step problems. Describe the cause/effect of a particular event. Identify patterns in events or behavior. Formulate a routine problem given data and conditions. Organize, represent and interpret data.</td>
<td>Support ideas with details and examples. Use voice appropriate to the purpose and audience. Identify research questions and design investigations for a scientific problem. Develop a scientific model for a complex situation. Determine the author’s purpose and describe how it affects the interpretation of a reading selection. Apply a concept in other contexts.</td>
<td>Conduct a project that requires specifying a problem, designing and conducting an experiment, analyzing its data, and reporting results/solutions. Apply mathematical model to illuminate a problem or situation. Analyze and synthesize information from multiple sources. Describe and illustrate how common themes are found across texts from different cultures. Design a mathematical model to inform and solve a practical or abstract situation.</td>
</tr>
