Indiana Department of Education (IDOE), Office of Workforce & Innovation

STEM Acceleration Grant

Statement of Assurances

By submitting this application the school corporation assures:

1. The school corporation’s submitted application is complete and accurate.
2. At least one representative from the school corporation will participate in the STEM Curriculum Showcase, which will be hosted by IDOE on October 21, 2019.
3. The school corporation will identify at least three elementary teachers, at least two middle school teachers, and at least one high school teacher from each of the buildings participating in this grant, to complete the free Computer Science training provided by IDOE’s Office of Workforce and Innovation selected vendors.
4. The school corporation will identify a staff member and support his/her participation in the Ford Next Gen PBL Train the Trainer program, including:
   a. The initial four-day Ford Next Gen PBL training in the Summer of 2020;
   b. in monthly, 60-minute interactive virtual STEM Professional Learning Community coaching sessions (five each semester) held outside of the instructional day during the 2020-2021 school year;
   c. in up to three online, interactive training sessions per semester with subject-matter experts held outside of the instructional day during the 2020-2021 school year; and
   d. in the four-day immersive learning workshop, in the Summer 2021.
   e. The school corporation will provide a detailed outline of the cohort member’s coaching plan to ensure the training of district staff members in PBL. The plan should target maximum training by the 2024-2025 school year.
5. The Superintendent or designee will complete all grant reports requested by IDOE.
6. All travel for this agreement is done on behalf of IDOE and Indiana State travel policy will be adhered to.
